# Le programme
# UKON DD

# Qu’est ce que le UKON ?

* Le UKON est un complément alimentaire à base de Curcuma.
* Le Curcuma est une plante herbacée originaire de l’Asie du Sud-Est, très utlisée dans la cuisine et la médecine orientale.
* La Curcumine est le principal principe actif présent dans le Curcuma.

# Le Curcuma

Le Curcuma possède des propriétés médicinales reconnues et utilisées dans la **médecine Ayurvédique Indienne**, **et la médecine chinoise**, principalement pour ses propriétés **anti-inflammatoires et anti-oxydantes.**

# Effets bénéfiques du Curcuma sur l'organisme.

* **Antioxydant**
* Anti-inflammatoire
* **Antiseptique**
* Accélère la cicatrisation des plaies.
* **Améliore l'élasticité ligamentaire et la souplesse articulaire**
* Combat et prévient l'apparition des radicaux libres
* **Favorise le bon fonctionnement du système digestif**
* Améliore la circulation
* **Régule le taux de cholesterol et de sucre dans le sang**
* Diminue le risque de formation d'ulcères gastriques, duodénals et peptiques
* **Accélère l'élimination des toxines, en particulier du foie et de l'intestin**
* Tonifie et revitalise la peau, aide à combattre l'eczema, le psoriasis, etc.
* **Facilite la digestion des aliments gras et augmente la sécrétion biliaire**
* Réduit la production de gaz intestinaux.

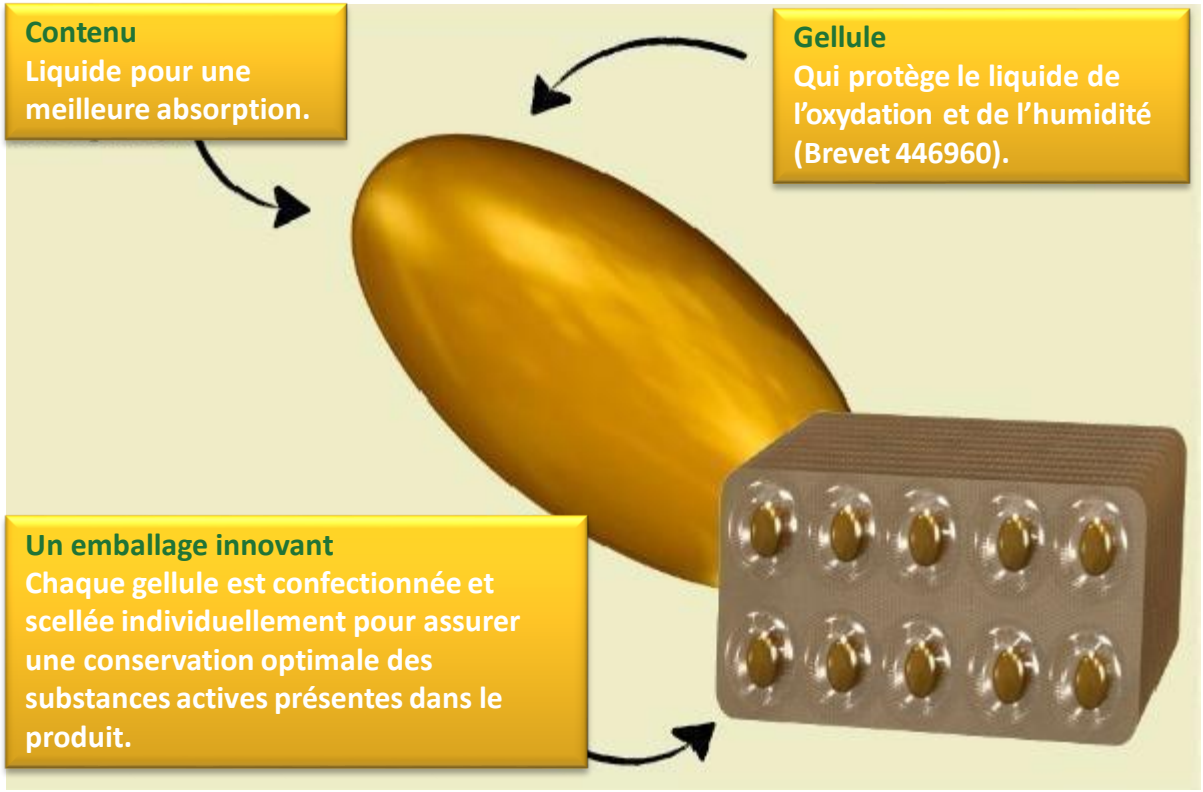
# Un fort pouvoir antioxydant

A la différence des autres antioxydants, les curcuminoïdes sont capables de prévenir à la fois la formation de radicaux libres et de neutraliser ceux déjà formés. Ils sont donc considérés comme de puissants bioprotecteurs.

# Qu'est ce qui rend le UKON d'Enagic si spécial ?

* Le "terroir" d'Okinawa (climat, sol, ensoleillement…).
* Nous utilisons des dérivés de Curcuma sauvage.
* Des capsules scellées individuellement et faciles à absorber.
* Un opercule breveté qui prévient l'oxydation des composants.
* Il est 100% bio, sans aucun additif chimique.
* Les ingredients sont stérilisés à l'eau Kangen pH 2,5 et 11,5.
* Contient 2 types de Curcuma :
    1. Curcuma de printemps – Utilisé pour élaborer les huiles essentielles et très riche en minéraux.
    2. Curcuma d'automne – contient un haut taux de curcumine.

# Un système d'emballage breveté



# Ingrédients

| Ingrédients | Dosage / gellule |
|---|---|
| Vitamine C | 5 mg |
| Vitamine E (tocotriénol) | 36 IU |
| Thiamine (Vitamine B1) | 5 mg |
| Niacine | 5 mg |

| Acide folique | 150 mcg |
| Vitamine B12 | 50 mg |
| Curcuma (racine) | 600 mg |
| Huile essentielle de Curcuma (racine) | 50 mg |
| Huile d'olive | 419.8 mg |
| Huile de périlla | 100 mg |
| Huile de lin (graines) | 50 mg |
| Huile d'onagre | 50 mg |

# Kangen Ukon Σ Power

## Kangen Water® soft-gel capsules contain a myriad of fresh nutrients.

### Ukon (Turmeric)

Ukon (commonly known as "Turmeric") is a plant which has been known since the era of the Ryukyu Dynasty and has a strong antioxidant effect. Only 100% organic Ukon cultivated by contracting farmers is used in the product. The Ukon which has a high content of curcumin and the wild Ukon which is abundant in mineral and essential oil components are washed with strong Kangen water®, sterilized with strong acid water, and then blended together.†

### Olive Oil

Olive oil is composed primarily of oleic acid, a fatty acid that can help maintain LDL (low density lipoprotein) levels that are already within normal limits.†

### Perilla Oil

Perilla Oil is composed of 50-60 percent alpha-linolenic acid, an omega-3 fatty acid that can help in maintaining a strong immune system.†

### Vitamin C

One of the leading vitamins which promotes antioxidative actions.†

### Vitamin B2

One of the vitamins critical to metabolic processes.† also known for the maintenance of good health.†

### Vitamin B1

This vitamin helps break down carbohydrates into fuel for the body and it also plays a role in nerve cell function.†

### Vitamin B12

Together with folic acid plays a key role in regulating red blood cell formation.†

### Vitamin E

It is a fat-soluble antioxidant that stops the production of reactive oxygen species formed when fat undergoes oxidation.†

Turmeric SIGMA
KANGEN UKONΣ™

### Flaxseed Oil

Flaxseed Oil is primarily composed of alpha-linolenic acid, an omega-3 fatty acid commonly found in fish oil. It promotes healthy cardiovascular function and helps maintain cholesterol levels that are already within normal limits.†

### Evening Primrose Oil

It is an unsaturated fatty acid which contains more than 9% γ-linolenic acid. Studies indicate that it also helps maintain cholesterol and blood sugar levels that are already within normal limits.†

### Tocotrienol

Tocotrienol is contained in rice and is a member of the vitamin E family. It is also called super vitamin E due to its antioxidation effect.†

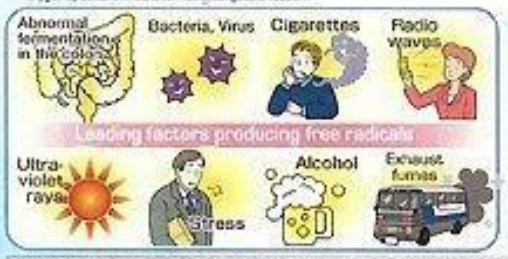
### Beeswax • Glycerin
### Glycerin fatty acid ester

### Niacin

Niacin is an essential nutrient which helps maintain healthy skin and promotes healthy liver functions.†

### Folic acid

An essential nutrient which supports numerous bodily functions including the production of healthy red blood cells.†



### The world's first Kangen Water® soft gel

Innovative packaging technology is incorporated to repel moisture and prevent oxidization. Each Kangen Water® soft gel capsule is individually packaged for easy use.
